GUIDED MISSILE AND ASTRONAUTICS INTELLIGENCE COMMITTEE

25X1

JCS REVIEW
COMPLETED

10 January 1962

MEMORANDUM FOR : Members, Guided Missile and Astronautics
Intelligence Committee

SUBJECT : GMAIC Assignment of Tasks for Preparation of
Inputs to JCS Supplementary Collection
Operations Plan

REFERENCE : a. J3M-1-62 JRC dated 9 January 1962
(attached)

1. As indicated in the attached reference, GMAIC has been assigned certain tasks. Considering the relatively short deadline, 15 February 1962, I believe this to be a matter of priority GMAIC action and therefore recommend the following task assignments within GMAIC :

25X1

SECRET

Approved For Release 2003/08/08 : CIA-RDP79R00961A000800100033-3

3. In supplying your response, please keep in mind the purpose of the supporting data, i. e., to educate and inspire the collectors in the field to accomplish a better collection job. These plans will receive broad dissemination in remote areas and therefore should not compromise security data which is not of a "need to know" nature for the collector.

4. The draft outline discussed in paragraph 2 of reference was passed out at the meeting and will be available immediately through the attendees listed on enclosure 1, reference a. The GMAIC Secretariat will forward additional copies of this as received.

5. If members desire to discuss these assignments and/or substantive matters pertaining thereto, they can be taken up at the 16 January 1962 regular GMAIC meeting if requested, otherwise, I will assume that work in the assigned areas is underway.

EARL McFARLAND, JR.
Colonel, USAF
Chairman
